They were told that the Police Department would enforce this law and that arrangements for a pound would be discussed. Eugene Valley suggested that the Health Officer enforce this.

Article 11. (By Petition) To see if the Town will vote to raise and appropriate the sum of Twenty-four Thousand Dollars (\$24,000.00) to build a 40 by 60 foot brick faced town garage to be connected to the north side of the Municipal Building. (This Article is disapproved by the Budget Committee.)

--A motion was made by Robert Petrin to accept Article 13 as read. Motion was seconded by Roger Menard. Oscar Pelletier questioned whether a red light would be just as good. Leandre Desrochers, firechief, explained that with this the firemen would be able to go to and from the fire station safely.

(By Petition) To see if the Town will vote to raise and appropriate a sum of money not to exceed Nine Hundred Dollars (\$900.00) to road mix that section of Granite Street Extension, an existing Town Highway, beginning where the pavement presently ends at the home of Edward Huggins and extending for a distance of Four Hundred Feet (400') in length and Eighteen Feet (18') in width, ending at a point just beyond the property line of Richard R. --Eugene Valley made a motion to disapprove Article 16, seconded by Raymond Gagne. Robert Chevette made a motion to amend Article 16 to read "that Fire Chief should be elected for a term of three years starting with the 1973 Town Elections." Seconded by the floor and voted.

Article 17. To transact any other business that may legally come before said meeting.

FIRE DEPARTMENT

To the Residents of Allenstown:

In 1972, the Allenstown Fire Department took a big step in the future protection of its firemen, by acquiring thirty new type helmets. Unfortunately this decision came about only after our destructive fire of the K of C building, which two of our neighboring fellow firemen were hurt by falling debris, only these particular helmets we feel did save their lives or from more serious injuries. So I would like to take this opportunity to thank the Suncook Bank for their generous donation towards these particular helmets which we have acquired. These helmets were paid half by the Suncook Bank and the other half by the members of the Allenstown Fire Department through our fund raising drives.

Our training program continues to be our number one activity in the Department, through State Training and our own weekly training program. The men also attend different Fire Schools in the summer on week ends of which the expenses are incurred by the firemen themselves. This past year it also has been the first time that the Officers of this Department have ever attended an Officers Training Seminar.

In an effort to help keep the Town Budget expenses down we have purchases \$1,700.00 worth of firefighting equipment through our own annual fund raising drives. Also the members have donated 200 man hours on two different search and rescue operations.

This past year we had a decrease of 2 fires, but it was also an increase of serious type fires, and also false alarms. For the first time in our Town a false alarm case was solved and prosecution made, this was done only by the team work of both Fire Department and Police Department, dedicated to serve you to our fullest.

A bill is now introduced in the State Legislature for reimbursing the Town of Allenstown for the arson building fires in Bear Brook State Park in 1971. The area legislatures deserve a well deserved thank you note for their great work on this matter.

To the People of Allenstown, Thank You for your cooperation and the interest you have shown to all of us.

The Members and I will continue to serve you to the best of our ability.

Yours in Fire Safety,

Leandre Desrochers, Fire Chief
Allenstown Fire Department

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned - 1972 season:

STATE	410 fires	361 acres	Burned
DISTRICT	90 fires	135 1/2 acres	Burned

Minutes of School District Meeting

March 4, 1972

The annual meeting of the Allenstown School District was called to order at 2:10 P.M.

The moderator, Armand Dugas made the statement that he wanted to acknowledge the fact that the school district was pleased to have this first official meeting in the new addition to the school. He then proceeded to read the warrant for the 1972-73 year.

The voting for School District was opened at 2:15 P.M. the same being done by ballot. The voting ended at 2:30 P.M. While the ballots were being counted, the regular meeting continued.

Lionel Stokes made the motion to accept article #8 pertaining to the changing of Assistant Superintendent to Business Administrator and was seconded by Roger Menard. The floor was then open to discussion. Blanche L. Proulx, asked if this would be explained to the assembly. Mr. Cawley, Assistant Supt. of the district told the assembly that the central office now had a Superintendent of Schools, and two assistants. He declared that if this was passed, a business administrator would be appointed. The article would merely change the title from assistant superintendent to business administrator. If this article were defeated the town would have to pay the whole salary which would be approximately \$11,500; if voted in, it would have to pay only its share. He stated that the Superintendent was in charge of all 8 districts, one assistant is in charge of curriculum and the 2nd is in charge of business. This article would only change this by having one superintendent, one assistant superintendent and one business administrator. This article had to be included in the warrant of all 8 school districts and each one pays so much toward the salary. The motion was carried.

Armand Dupont, School Board Member explained article 9 to the assembly. He stated that each year a certain sum was placed in a Capital Reserve Fund for the purpose of purchasing a school bus. He stated that a bus lasted approximately 5 to 7 years. The present one we have is only four years old and very expensive to operate. The repairs are very high. The School Board rented a bus from a company in Merrimack which is actually cheaper than owning our own bus. The board feels that they do not need the money in the

Capital Reserve Fund for the purchase of a bus any more. He stated that the town is growing very fast and that we must look into the future for a new school should the need arise. It is possible that in a few years the board will have to look into the possibility of land acquisition. The present building cannot be expanded any more than it is now. He stated that the money available, namely \$5,936.24 should be set aside for the purchase of land instead of a bus. Robert Pelkey asked where the money was obtained for the second bus they are now leasing. He was told that the board applied to the State Tax Commission for emergency funds and an article is included in the budget to take care of this deficit. Estelle Godbout made the motion that the article be accepted and the same was seconded by Robert Pelkey. The motion was carried.

The next article on the agenda was article 10 pertaining to the amount of \$1,955.01 the excess in revenue received from the N.H. Sweepstakes Commission. The Board is asking to use these monies to offset the increased cost of FICA (Social Security) as the state share of the last quarter will not be refunded. The assembly was told that the law had been changed so that the School Board has to pay the entire amount for Social Security where before a share of it was paid by the state. Mr. Todd asked if it was not stipulated that any money received from the Sweepstakes be used strictly for educational purposes and would this be legal. He was told that the same can be used for any portion of the school expenses. Roger Menard made the motion that this article be accepted and was seconded by Estelle Godbout. The motion was carried.

Mr. Todd made the motion that we accept article #11 as read. This article states that the town would approve dual enrollment and have the same read as follows: "The instruction of Reading, Language, Mathematics, and Science for Grades 3 through 8, for one-half of the school day, for the school year 1972-73." It was seconded by Albert Petit and the article was approved.

Article #11-b was taken up next it reads as follows "Appropriate the sum of \$36,000. to implement the plan and to authorize the school board to apply for any grants under R.S.A. 198:21 which funds will be credited to the district. Mr. Lionel Stokes made the motion that the article be accepted and was seconded by Albert Petit. The article was approved.

Mr. Todd made the motion that we accept article #12 to see if the voters will authorize the school board to accept on behalf of the District any Federal or State Funds designed to improve educational opportunities. Further, to see if the District will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate. The same was seconded by Mr. Patenaude. The article was approved.

The next item brought before the assembly was article #13 to see if the district will authorize the School Board to install a master fire alarm box. The Budget Committee was in favor of having this installed but said the money would have to come from elsewhere. Jesse Welch brought up the point that a certain amount was left from last year and asked if this was returned to the town. Romeo Descoteaux reported that the amount of \$8,816.61 is the amount that was left over but it is not returned to the town, instead it helps to reduce the amount appropriated for the 1972-73 budget. He said that there was money in the bond issue to take care of this equipment and that this is where the money will come from. The Budget Committee felt that the need for such an alarm was there but disapproved the article as there were funds available from the bond issue to take care of it. It was stated that this article could be killed and the School Board would not object. These monies from the bond issue are used to buy desks and chairs and such items for the school and this alarm is the same type of item. Mr. Petit asked why this was put in the warrant as it had been disapproved by the budget committee. Mr. Chevette also stated that this is a dead issue and should not come before this assembly at this time. The question was asked if this meant that we would still have the alarm system even if this is disapproved and the answer was yes. It was stated that the voters can change a budget by 10% even if the same is disapproved by the budget committee beforehand. Estelle Godbout made the motion that the article be disapproved and was seconded by Armand Dupont. The article was disapproved.

The next item brought before the assembly was #14 the budget. The moderator took each line item separately. No questions were asked therefore the sums for administrations, salaries etc. was approved.

The next item on the budget consisted of instructions and materials. David Laberge asked if the increase of \$30,000. was for additional teachers. He was told that two additional teachers would have to be hired and the balance is an increase in salaries for the present teachers. It is based on a 5.5% of the base which is \$6,600. There is an increase of \$22,047 for dual enrollment. We pay the

whole amount. We then bill Pembroke and collect \$8,000. from this town. These were approved.

Attendance Services and transportation were next. Mr. Todd asked if the increase in transportation is the amount for leasing the bus. He was told that they still use the one that the district has and would continue to do so until it can no longer run as well as leasing the other bus. These articles were approved.

Question was asked what the amount of \$6,300. consisted for rent and they were told that this is the payment of rent to the parochial school for dual enrollment. The items of maintenance of plant and Fixed Charges were approved.

The next item was student activities. David Laberge asked if there would be a coach for athletic activities and a student council. He was told that there are more activities being planned but this money was all they needed. There would be some basketball but this is primarily for baseball and softball. This item does not have anything to do with physical education. This item as well as monies for Capital Outlay and Debt Services were approved.

Mr. Pelkey asked what the increase in tuition included. He was told that we now have 140 students at Pembroke Academy at \$975. each and this next year we will have 181 students at a cost of \$1100. each. Mr. Todd asked why the money from the Capital Reserve Fund could not be used for this purpose and was told that we had already approved this amount for the land fund. Asked when they anticipated they would have to be looking for land, the people were told that we would have to be looking into this matter in about four years. These articles were approved. Roger Menard made the motion that we accept the School District budget of \$530,156.00 and was seconded by Robert Girard. This article was approved.

At this time the moderator was given the results of the balloting. 103 votes were cast and the slate of officers for the ensuing year was as follows:

Armand Dupont, School Board Member
Blanche L. Proulx, School District Clerk
Estelle Godbout, School Treasurer
Armand Dugas, Moderator
Lionel Stokes, Auditor
Roger Menard, Auditor

The moderator asked if there was any more business to be taken up at this meeting.

Mrs. Reslock asked if arrangements with the Boosters could be made so that the organization could use the new facilities after school for various activities. Armand Dupont told her that they have not reached a decision so far in this matter. They have heard of the trouble and difficulties the parochial school have had at their gym and there has been a lot of damage. If the boosters were willing to check on the young people and responsible persons were available to supervise it might be possible. The board also stated that they regretted the fact that the addition was not advanced enough to have the people visit but it would be done at a later date.

Mr. Pelkey asked Mr. Descoteaux what his views were on the subject. He stated that if any organization wants to use the facilities, they should come before the board and get their approval for its use. He stated that Mrs. Reslock had a good point but nothing is being planned at this time.

Asher Kneeland made the motion that we adjourn and it was seconded by Robert Girard.

The meeting was adjourned at 3:20 P.M.

Superintendent's Report

Today's schools are indeed becoming more and more complex. We see evidence of this here in Allenstown. The job of the teacher is ever more demanding and one that requires constant re-evaluation in terms of today's curriculum.

We now find the school curriculum has become everybody's business. Inside and outside education, there are forces that propose changes in our schools.

Some call for a return to "basic education," while still others want more emphasis on "creativity" and "individualized instruction." This is the dilemma facing your School Board.

At our town level, we realize that the curriculum is affected by the availability of materials, physical facilities, and community demands, including financial resources.

Teaching techniques previously have been geared toward drill and repetition. Today we find the stress on developing understanding and overall content, rather than studying isolated factual material.

There is great need to adjust the curriculum to the needs of the times. We might very well find in the near future, full-time teachers working on developing the curriculum when students are not in attendance.

Libraries or media centers will need to receive a high priority in our town budget if standards are to be maintained. Title II of the Elementary and Secondary Act of 1965 has helped us some but much more local effort is needed in the years to come.

We need and hopefully will see much stress in the future on Vocational Education. A school program is certainly needed that will enable every young person completing Grade 12 to be ready to enter higher education or to enter useful and rewarding employment. We are really talking about the capacity of our people to sustain and accelerate the pace of progress in this country during a lifetime of learning.

I appreciate the cooperation of the School Board and the community in our educational endeavors.

Respectfully submitted,

David R. Cawley
Acting Superintendent of Schools
